# Hardee County Economic Development Council/Industrial Development Authority Regular Meeting Minutes March 12, 2013 Hardee County BOCC

Jim See- IDA Chairman/EDC Vice Chairman-PRick Justice-ADonald Samuels-PVanessa Hernandez- EDC Chairwoman/Vice Chairwoman-PJohn O'Neai-PDottie Conerly-PMichael Prescott-PLory Durrance-PRussell Melendy-PPaul Roberts-ADiana Youmans-PDoug Jensen-P

The meeting was called to order at 9am.

Visiting: Benny Albritton, Henry Kuhlman, Doug Knight, Park Winter, Arnold Lanier, Travis Bond, Dave Brown, Diane K., Horst, Robert Cole, Carl Saunders, Bryan Pelham, Lenora White, Kenny Lambert, Stan Pelham, Cynthia Paxton, Lavon Cobb, Frank Kirkland, Mike Rouse, Mike Deeson and Channell O cameraman, Steven Southwell, Dr. Armaghini, Tip Fowler, Mark Vignovic, Bo See, Bryan Kornegay, Brian Samuels, Dustin Jurman, Fred Jahna, Linda See and Terry Atchley.

County Attorney: Ken Evers

County Commissioners: Mike Thompson, Colon Lambert, Grady Johnson and Sue Birge

Press: Michael Kelly

**Staff**: Bill Lambert, Sarah Pelham, Kristi Schierling and Krystin Chapman and Casey Dickson (Chamber of Commerce)

**Agenda:** Director Lambert added to the agenda. Krystin Chapman will give a brief marketing update and the Economy Building Strategy will be moved to next month and Casey Dickson will give the Mosaic presentation in its place.

Doug Jensen made a motion and was seconded by Mike Prescott to approve the agenda with the changes. Motion passed unanimously.

#### Item 1-EZProducts

Dave Brown came to let the Board know how his business was doing. He has hired 3 more people and is getting ready to expand. He will then be hiring 2 more people. His new location is at 612 North Florida Avenue and has invited everyone to come and check it out.

#### Item 2-Mosaic Funding Presentation

Casey Dickson presented the rough draft to the IDA board. This will be presented to the BOCC at their next meeting. Casey Dickson went through the slides and reviewed the history of the Mosaic Agreement, the payment allocations, developer utilization, and overriding philosophy. She then went through the projects and their statuses.

#### **Item3-EDA Grant Modification**

During the Auditor General Audit it was noted the EDA reimbursed the IDA for a Distance Learning and Telemedicine Grant that possibly should not have been included. The EDA decided to amend their grant to the IDA to include the Distance Learning and Telemedicine Grant. A modification was done and needs Chair See's signature.

Lory Durrance made a motion and was seconded by Doug Jensen to approve the EDA grant modification and have the Chairman sign. Motion passed unanimously.

#### Item 4-JDC Phosphates

JDC Phosphates came to the IDA board today to seek funding to perform laboratory test on J-Rox aggregate to determine its basic physical, chemical and mechanical properties and conduct field demonstrations in Hardee County to evaluate its engineering applications. J-Rox lightweight aggregate is a companion product to the phosphoric acid which is produced through the Improved Hard Process. J-Rox is a man-made aggregate.

Donald Samuels made a motion and was seconded by Doug Jensen to authorize the funding of \$200,000 to JDC Phosphate to prove the reliability of the aggregate by-product. Motion passed unanimously.

#### Item 5-Communications Policy

Vice-Chair Hernandez thought it would be beneficial for the Board and staff to have a workshop to go over all the policies and procedures, oversight and Sunshine Law. We will try to get the gentleman that does the Sunshine Law workshops for the city to attend our meeting and give us a review of the Law. Diana Youmans made a motion and was seconded by Russ Melendy for the staff to coordinate a date for the workshop to discuss the items mentioned today.

#### Item 6- Utilities Construction Services Update-Corridor Development

The contract for Construction Services that Polk County has,had been previously emailed to the Board members to be reviewed for today's discussion. Director Lambert let they board know that they could authorize him to develop an RFP or to go ahead and "piggback" on the contract that Polk County currently has with Killebrew. Developing such an intricate RFP for this type of service would take time and everyone would like to get the Corridor Development moving along. Director Lambert also suggested that we could take this contract as a guideline for developing an RFP but we may not get exactly what we need.

Doug Jensen made a motion and was seconded by Vanessa Hernandez to approve the "piggyback" on the contract that Polk County has with Killebrew for the Utilities Corridor Development. Motion passed unanimously.

\*\* Chair See turned the meeting over to Vice-Chair Hernandez for this portion of the meeting since he may have a conflict.\*\*

#### Item 7- Continuum Labs/TechRiver

Cynthia Dellepere-Paxton, an employee of Continuum Labs, gave a presentation to the Board showing them what she does and how much she has learned in such a short time of being employed there. Travis Bond gave his monthly update to the Board as well. He reviewed his progress plan and showed what had been completed and let the Board know that some are still in the stage of moving forward. He has hired a new employee and has met with 2 large companies.

Casey Dickson came up and answered any questions that the Board had regarding the draw request.

#### Item8-FRBA

FRBA (Florida Rural Broadband Alliance) has asked the IDA to intercede in the transfer of assets to Rapid Systems. We have initiated the closeout of Rapid Systems with CliftonLarsonAllen. Director Lambert advised the Board that they should wait to do the transfer of any assets to Rapid Systems until the closeout audit is complete and there are no issues. Director Lambert also advised the Board that the IDA should stay out of the issues between FRBA and Rapid Systems.

#### Item 9- BioNitrogen Update

Bryan Kornegay was here to update the Board with the status of his company. BioNitrogen has signed an agreement with CF Industries to receive their woody biomass. They have completed their Conceptual Engineering and Feasibility study and have closed on an additional 566 acres. They are coming back before the Board today to ask if the IDA will amend the grant award to release the funds early for the rail spur so they can be reimbursed for money spent on rail cost thus far for engineering. Vanessa Hernandez made a motion and Mike Prescott seconded to table this discussion until the IDA Board can determine an acceptable solution. Motion passed. Donald Samuels abstained.

#### Item 10- Project Updates

Written project updates were provided by separate email and attached to minutes as informational item.

#### Item 11- Financial Report

Sarah Pelham reviewed the financials with the Board.

Vanessa Hernandez made a motion and was seconded by Doug Jensen to accept both the EDC and IDA financials. Motion passed unanimously.

Donald Samuels made a motion and Dottie Conerly seconded the motion to adjourn the meeting. Adjourned at 1:02 pm.

#### **Project Status Updates 03/01/13**

<u>Project Evergreen</u> is a very large, confidential, Ag project looking for a home, hopefully in Hardee County. Site requirements limit location to a small number of properties. It continues to be active with the Economic Development Office and is projected at a \$200,000,000 investment with 400 full time jobs at full build out. This project continues to stay at the top of my list of preferred private sector job creation opportunities. Due diligence will accelerate once a site is optioned by the company.

#### Ft. Green LNG (liquefied natural gas):

#### Detail

This is a totally private venture that has received a major special exception land use change in Hardee County to accommodate its construction. Recent natural gas discoveries across North America complement its construction. The EDC and IDA have no involvement in this project other than local facilitation.

#### Summary

Fort Green Storage,LLC proposes to take natural gas (methane) off existing main lines and to process and cool the methane to liquefied natural gas (LNG). The LNG will be used in two markets: (1) transportation fuel for automotive, large trucks and marine fuel; and (2) electrical generation fuel for both peaking and base load natural gas power generation plants.

#### Description

Fort Green Storage LLC has 486 acres under option in Hardee County and has obtained a Major Special Exception to build its proposed project. The project will be built in two phases:

#### Phase 1

LNG for transportation fueling with a capital cost estimated at \$40MM/\$80MM at 10,000-50,000 Mcf/day liquefaction. (Every 10, 000 Mcf (1000 cubic feet) produces 120,000 gallons of LNG.)

#### Phase 2

The liquefaction and storage of up to 12 BCF of LNG including three large on site erected tanks with a capacity of 4 BCF each. Capital cost of approximately \$200MM each for a total of \$800MM.

The project offers two benefits to the State. First, transportation fuel for trucking that is a much lower cost than diesel. LNG sells for a significant discount from diesel pricing with an abundant supply of domestic natural gas for the future. The project could make Florida a leader in providing low cost transportation alternatives for moving products. Discussions are ongoing with various parties for off-take and tolling agreements.

Second,LNG for generation fueling provides: (1) security during pipeline and generation outages; (2) peaking fuel to replace existing high cost fuel oil backup and (3) affords utilities a means to better utilize existing pipeline capacity. The electric power utilities are key to success for the large storage (Phase 2).

**National Solar** announced in September in Tallahassee that the Hardee County project would be built: \$200 million (Holly Hill). National political dynamics and alternative energy economics may affect its status.

Details:

Email from 01/29/13 from CEO of National Solar:

Bill,

Things are moving along at the usual utility pace...slowly!

We can provide a more detailed update; most likely construction on Phase 1 beginning in Q3 unless additional delays are incurred during the final permitting but it seems like interconnection is the limiting factor.

I'll have Eric put together something more complete for you to share.

Happy New Year!

James

"God does not play dice with the universe,"- Albert Einstein

#### NutraPure. henceforth referred to as Seychelles Organics

#### Detail

This Company is expected to continue strong expansion in Hardee County. Planning continues...

An affiliate subsidiary of Nutrapure and Nutraceutical, Inc. (\$200 million plus NASDAQ traded) in Park City, Utah, they purchased *Organics South*, the Forestwood building, 8 additional acres in the Commerce Park for a larger campus and are leasing part of the old Asgrow Property on US 17 in Wauchula.

#### **Bio Fuels**

#### Detail:

We must always ask: Is the proposed crop better than known existing cash flow potentials for the land, relative to economic risk factors (production yield cash flow stability), climatological and even political risk factors such as water use and labor regulations?

There continues to be activity in the biofuels market development. The problem is finding growers to invest in bio fuels crops without a refinery and how to justify a refinery without a reliable crop (chicken and egg situation). I generally evaluate the potential of a biomass crop on the competitive availability of land (is it better than citrus or cattle) and adaptability to classification of soil type (will it thrive on various soil types) for suitability to be considered as an alternative crop. Many of the proposals are put forth by scientists and entrepreneurs that have no direct acumen for Florida climate and growing conditions.

**Commerce Park** expansion includes extension of road and utilities through the southern portion of the property,including surface water management system construction.

#### Detail

Due to construction lead times, planning for the park expansion has been initiated. The crossing of Hog Branch engineering and permitting has been initiated and retention pond construction permitting is approved by water management district.

**Expansion of water and sewer** in the development corridor will occur from Zolfo Springs to Wauchula first. It is a joint effort between the County, the cities and the IDA.

#### Detail

Bowling Green, Wauchula, Zolfo Springs and Hardee County are all part of the working group, coordinated and facilitated by the IDA staff. The "piggyback contract" with Polk County is under review by the IDA members for consideration at the next regular meeting in March.

**Bio Nitrogen** is a biomass to urea project planned for the Larry Davis property in Vandolah. The IDA will provide up to 2 million for rail/road infrastructure pending marketing of bond financing totaling \$175 million. The bonds will be issued thru Enterprise Florida (Florida Development Finance Co) and by B,BandT,at this point.

#### Detail

Press release by the company on Feb. 20,2013:

BioNitrogen Receives Florida Governor's Approval to Allocate up to \$175 Million in Tax Free Bonds

DORAL, FL, Feb 19, 2013 {MARKETWIRE via COMTEX) -- BioNitrogen Corporation (PINKSHEETS: BION), a cleantech company that utilizes proprietary technology to build environmentally-friendly plants that convert biomass into urea fertilizer, announced today that it has received approval from the Florida Governor to issue up to \$175 million of tax exempt bonds. The bond offering is slated for completion in early 2013.

"The completion of the bond issuance process is another significant milestone for BioNitrogen," said Bryan Kornegay, Jr., President and CFO of BioNitrogen. "The Governor's action now clears the political path for issuing the bonds. In the interim, we are working to get the remaining air and water permits completed for construction and coordinating with KBR's Delaware-based operations, which is a KBR

center of excellence for Bio Based Chemicals and Fuels, to initiate plant design."

Construction on the site is slated to commence in early 2013. The proposed initial plant will be able to produce 15 tons of urea fertilizer hourly, totaling 360 short tons daily or 124,200 tons annually.

About BioNitrogen Corporation BioNitrogen Corp. (PINKSHEETS: BION) is a cleantech company that utilizes proprietary technology to build environmentally-friendly plants that convert biomass into urea fertilizer. Our mission is to provide safe, cost effective, green solutions that are economically beneficial in locations where biomass is produced and urea is consumed. Additional information can be found at www.BioNitrogen.com.

Safe Harbor Statement the forward-looking statements contained in this document involve risks and uncertainties that may affect the Company's operations, markets, products, services, prices and other factors as discussed in filings with the Securities and Exchange Commission. These risks and uncertainties include, but are not limited to, economic, competitive, legal, governmental and technological factors. Accordingly, there is no assurance that the Company's expectations will be realized. The Company assumes no obligation to provide revisions to any forward-looking statements should circumstances change, except as otherwise required by securities and other applicable laws.

And a related press release dated 02/27/13:

BioNitrogen Corporation Signs Exclusive Agreement With CF Industries for Biomass Supply

Company Receives Biomass Collection Permit from Florida Department of Environmental Protection

DORAL, FL, Feb 27, 2013 (MARKETWIRE via COMTEX) -- BioNitrogen Corporation (PINKSHEETS: BION), a cleantech company that utilizes

proprietary technology to build environmentally-friendly plants that convert biomass into urea fertilizer, announced today that it has signed an exclusive agreement with CF Industries, a global leader in fertilizer manufacturing and distribution, for the removal of its woody biomass from phosphate mining land to use for urea fertilizer production. This will supply BioNitrogen with biomass for its first plant in Hardee County, FL, and further demonstrates CF Industries environmental stewardship in its phosphate mining operations. According to the terms of this agreement, BioNitrogen will be able to receive all of the woody biomass from CF Industries where it clears wooded land in Hardee County to mine for phosphate. The agreement is for an initial 180-day period with the opportunity for an extended partnership.

"We are pleased to be working with CF Industries," said Bryan Kornegay, Jr., President and CFO of BioNitrogen. "This agreement will not only grow our secured biomass supply but it will also promote sustainability in Florida. Most of the trees in rural phosphate mining areas such as Hardee County are burned. It's great to see a company such as CF Industries promoting environmentally friendly approaches to phosphate mining and creating positive impacts for the community."

BioNitrogen also announced today that it has received approval from the Florida Department of Environmental Protection for woody biomass collection on the company's 600 acre land parcel in Hardee County.

Construction on the site is slated to commence in early 2013. The proposed plant will be able to produce 15 tons of urea fertilizer hourly, totaling 360 short tons daily or 124,200 tons annually.

About BioNitrogen Corporation BioNitrogen Corp. #### Note related to BioNitrogen:

We are expecting a formal presentation related to an independent third party company, (but ancillary user of urea) wishing to locate in the proximity of the BioNitrogen project to be announced soon. This company is enhanced by the rail and the urea production but is considering moving to Hardee County independently from BioNitrogen timeframes.

#### JDC Phosphates

This is a \$23 million fulfillment of a previously designed refinery process for "high mag or reject rock" that is being developed in Ft. Meade as a pilot. It is anticipated the full scale production facility can be located in Hardee County. It could develop into hundreds of ancillary jobs related to increase phosphoric acid production and aggregates and has procured approx. \$23 million in venture capital thus far to develop its product. The plant in Hardee County will be much larger than the pilot plant, should it become a reality.

#### Detail

The initial relationship for Hardee County related to this project will be approval by the IDA for \$200,000 in funding for the proposal contained in the attached PDF to prove the reliability of the aggregate by-product. The by-product will come initially from the pilot plant production in Ft. Meade and "reject rock" supplied by CFI in Hardee County. Discussions related to securing the grant funding with an equal quantity of "J-rock" or reject rock supply to the County (for roads,pathways,parking lots,etc.) in the event the economic development related to the project never materializes in Hardee County are being considered. Presentations will be forthcoming as per attached PDF:

Proposal to Hardee County on J-Rox - 2-2:

#### **PFM**

Construction on the PFM building is on schedule. We remain in constant contact with company representatives related to construction time frames and details related to building customization, Space Florida, QTI and numerous ancillary issues. We are still targeting the 1 st half of April for construction progress suitable to begin installing equipment.

**Tech River** is a subsidized "VOcational-tech" training center providing real work training scenarios and employment, including compensation while being trained. We are in constant contact with this project generally, on a daily basis. It has many moving parts and can best be described as "pure" economic development. It is not now, nor has it ever been considered to be classified as a "project" as defined in 159.27 (5) as proposed by the Auditor General. Rather, it is an economic development initiative pursued and funded by the Hardee County Industrial Development Authority as a result of the Mosaic Economic Terms Agreement.

The interpretation of the statute by the Auditor General related to Chapter 159, Florida Statutes is an opinion and does not carry the weight of law. The IDA continues to fund its obligations under contract and has authorized its attorney to seek and opinion from the Attorney General of the State of Florida.

There has been contentious philosophical dissention over the initiative ranging from extreme allegations of fraud, waste and abuse, political cronyism and inept judgment to praise and encouragement from both conservative and progressive factions.

#### Consider the following:

- Economic Development in Hardee County is difficult for many reasons. Among those
  most easily recognized is a pervasive indifference to the idea of diversifying the driving
  components of our economy. Additionally, some feel threatened, some feel
  disenfranchised, some are so skeptical it can't be sufficiently accomplished in time to
  positively impact their own existence, if ever.
- How does a community confront its future? Nothing remains constant in various economies. There have been profound changes in Hardee County's economic makeup over the last 150 years.
- The railroad opened opportunities and threats, depending on the attitude of the individual's perspective.
- Changing from "Open range" grazing to fenced pastures disenfranchised some and
  created opportunity for others. The automobile and ensuing road construction
  increased opportunity for most but was considered a threat by some. Telegraph,radio,
  telephone,electricity and television all eventually made impacts on our lives and
  evolved into new generations of influence and economic opportunity.
- We were the "frog leg and the Cucumber Capital" in bygone days along with being considered a progressive, commercial center.
- Changes in agricultural practices and **technology** have changed the crops we grow in the area, the entities that produce them and the labor that does the harvesting.

- Changes in retailing have radically transformed commerce, not only in our County but
  especially in small communities and whether these changes are good or not is not the
  issue. The issue is whether or not the community can adapt and diversity in a timely
  and sufficient manner to replace economies lost with new ideas and approaches.
- Education has become a one-way ticket out of most small communities for the last couple of generations because the mechanisms in the economy that provided a livelihood changed or disappeared and were not replaced.
- Hardee County has a readily identifiable set of circumstances that have created its
  current economic status and several readily identifiable solutions to its current
  economic status as long as political and business leadership continues to focus on
  creation of solutions and adaptations to economic change.
- In addition to the pursuit of industrial development (especially in the electric power grid, natural gas line, rail and mining corridor of the western third of the county), commercial and light development (the development of service and manufacturing businesses in the central portions along the transportation corridor including the expansion of water and wastewater services), agricultural enhancement and expansion (predicated on anticipation of pathological solutions to current crop or alternative crops related to bio mass or laws of supply and demand in a world with 7 billion persons), all scholarly and economic indicators point to the pursuit and development of a technology sector component.
- Adding a technology sector to our small rural economy has never been considered an
  easy task, but, failing to add meaningful diversity such as a technology sector to a small
  rural economy when given the opportunities Hardee County has been given may be
  more disdainful than pursuit of more easily comprehended alternatives.
- The initial pursuit of a technology sector began in the summer of 2011, thru the initial
  grant funding cycle of the first Mosaic Economic Terms Agreement payment. This first
  payment was completed in May of 2011, even though the Agreement was
  consummated in 2008.
- The IDA,in an effort to solicit ideas from the private sector and anxious to infuse development opportunity into the local economy after almost four years of severe economic downturn at the national state and local level, authorized a funding cycle to award economic development money provided by the Mosaic Company, according to the terms of the agreement.
- Even though this cycle had almost \$3 million available, there were not any "blue chip" companies anxious to expand operations to Hardee County and none were anticipated.
- In reality, Hardee County has a diversity of national and local "blue chip" businesses including Tampa Electric, Northern Star Generation, Invenergy, Mosaic, CFI, Seminole Electric, Oldcastle, Seychelles Organics, United Agricultural Products, Helena, Keyplex,

- Pacer Marine, 5 financial institutions, Florida Hospital, numerous national and regional chain establishments, hundreds of small businesses and state and local governmental entities.
- The national economic downturn in continuing to penetrate deeper into the national ideological foundations caused an insightful observation that technology was touching every sector and every citizen. We had/have continued as a nation to become so efficient and so benevolent in sharing our intellect and pinnacle existence with the rest of the world that our way of life was being noticeably impacted. The logical indicators, the academia and the politicians, asserted and continue to assert focus on this technological revolution.
- Economic development and politics generally work hand in hand in a complementary
  and complimentary fashion. LifeSync and its current evolutionary existence of
  Continuum are the result of an entire set of circumstances related to development of
  technology sector as an aspect of economic development, politics and the initial grant
  funding cycle associated with the Mosaic Economic Terms Agreement.
- The intent and purpose of this funding was/is to provide economic incentive to
  entrepreneurial talent in the context of paying for training local citizens, while creating a
  complimentary culture of diversity with a technology sector in the Hardee County
  economy.
- This project location, at the old PRECO headquarters, is named Tech River Technology
  Park. The objective is to add a complementary mix of employment opportunities
  including development of entrepreneurial talent in an economy that is generally void of
  such opportunity, to enhance the other components that provide a means for folks to
  live in Hardee County and a government to provide its "promotion of the general
  welfare."
- Rapid Systems will be moving its main office and engineering staff from West Shore in Tampa to occupy part of Tech River, inclusive of training for job preparation in the wireless Broadband field. (The final audit for closeout of the Hardee Broadband project has been initiated and will be performed by Clifton, Larsen, Allen).
- Rapid Tech, a local **technology** company will be located in the PRECO building to provide and expand VOIP (voice over internet protocol) phone service to Hardee County and to enhance their current business syllabus.
- Recruitment of additional established and start-ups will continue as an objective of
  economic development in Hardee County, especially with the Mosaic Economic Terms
  Agreement pending resolution of the interpretation of Chapter 159, Florida Statutes. If
  the IDA was not allowed to enter into contracts to "foster and promote economic
  development" according to the verbiage in the statute, only "bricks and mortar
  projects" according to 1970's development philosophy of bond issues will be pursued

- henceforth. We are in a transition economy and public tax supported operational projects are going to be a tough sell.
- Everyone should be totally aware of land use, property ownership, likely
  acquisition/development scenarios into the future (feeding a 7+ billion population in the
  world) and post-mining reclamation maps before developing conservative or
  indifferent attitudes towards economic development efforts in Hardee County.

Mitigation with CF Industries is completed with parity based on the Mosaic Agreement and providing funding for education and recreation as a supplemental aspect of Economic Development. This Agreement, which provides economic development element of the Comprehensive Plan compliance by CFI, was negotiated on behalf of Hardee County by the ED office. The funding will be administered thru the Hardee County Economic Development Authority by "rule" agreement conditions and modification of the local bill that created the EDA is being considered. The modifications to the Economic Development Authority "local bill" will be taken up by the Florida legislature after a detailed understanding of the modifications are discussed and proposed to the local legislative delegation and presented to the public during the next year.

#### Detail

The first installment (\$1million of \$10 million) is expected later in 2013 when all permits for the CFI South Pasture Extension permits are issued. The balance will be paid in three installments (\$3 million each) annually once mining commences on this mine extension property.

#### The USF Florida Institute of Government Economy Building Strategy

Phase 2 will be presented shortly to the Chamber/IDA.

A separate contract with the IDA evaluating previous economic development projects is being finalized.
